

Revius Lyceum is a school for pupils aged 12 to 18. Its 800 students have lessons at havo level (five years) or vwo level (six years)

After graduating most havo students continue their studies at Schools for Higher Vocational Training while most vwo students go to universities.

Revius Lyceum has some 80 members of staff.

Together with about 30 other Dutch schools Revius Lyceum constitutes the so-called ELOS network, which seeks to promote the European dimension in education.

Internationalisation is an essential part of our curriculum. In addition to the international exchanges in the fourth year in which all students participate, much attention is paid to language education. Students can obtain a Cambridge certificate and take extra German (the Goethe programme) or French (DELTA scolaire) classes.

Besides this there are international (Comenius) projects with themes such as Water Management and Sustainable Energy.

Maassluis, Reviuslyceum

Revius Lyceum is part of the Lentiz educational group, which has more than 7,000 students, distributed among 11 locations in the area.

Maassluis, the “First City on the Waterweg”, has nearly 32,000 inhabitants. It is in fact a suburb of Rotterdam and part of the “Randstad”, the urban agglomeration of Western Holland. It is situated in the province of Zuid Holland.

Maassluis is not very large but it is centrally located to some important and very interesting cities. The distance to Rotterdam, which is among other things by far the biggest port in Europe, and the seat of government, The Hague, is less than 20 kilometres. The city of Delft with its rich historical and cultural heritage (e.g. the famous painter Johannes Vermeer) is just 15 kilometres from Maassluis.

Amsterdam, the Dutch capital, is also within easy reach of Maassluis.

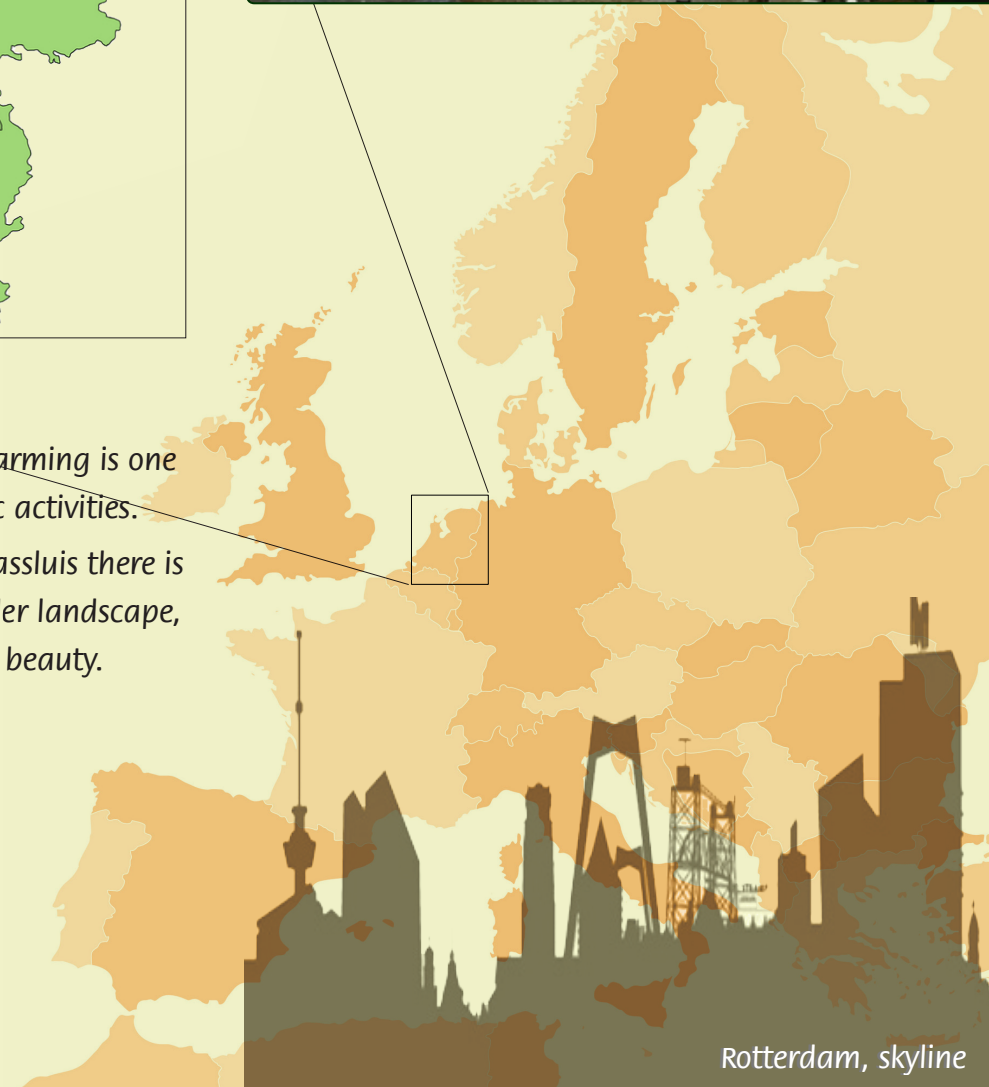

Maassluis, harbour with Church

In the “Westland” greenhouse farming is one of the most important economic activities.

In the immediate vicinity of Maassluis there is also a magnificent age-old polder landscape, an area of outstanding natural beauty.
